Hi Karyn,

Have you had a chance to look into this issue or have you forwarded it to one of your colleagues? Our regional folks and the Corps are beginning their 3-day long site visit today and it would be great if while they are there we could inform them if there is anything particular they should pay attention to that we might have overlooked.

Thanks,
Hadas

thanks Hadas - I'm generally the jurisdictional person but Alexis Wade has taken over the waste treatment exclusion issue. I'll check in with Gautam on who should handle this.

Subject: JD review: Climax Mine, CO

Hi Karyn,

I think we have met before, but just in case – I’m an ORISE on Donna’s JD team and act as our region 8 liaison.

A little background first:
We have a JD that’s been floating around for a while regarding Climax Mine, located in CO, which has been inactive for a few years and is now seeking to expand and resume operation. The Corps is handling the JD with a site visit scheduled for next week, and has been closely collaborating with us and the region (Erin Perkins is familiar with the case), doing a great job at keeping us in the loop.

Just in case you are willing to go over it – I’ve attached it to this email. Let me know if you would like a copy of the maps to get a general idea of the area in question.

Thanks,
Hadas
